ΚΑΛΟΣ - GOOD

10-month old brown female. Strong built. Feminine head. I wish that the nose would be a little longer and more straight. Good dark eyes for a brown. Teeth and bite correct. Good underjaw, a little loose lips. The neck should be a little bit more dry and a little longer. Angulation at the front is acceptable, but good forechest and very good depth. The back should be stronger. Croup is OK. Tail a little low. The back hand angulation is acceptable. The knee angulation should be better. Nice coat and color. Strong bones. Correct markings. The marks at the front are just visible. She moves very well with long steps. She could use a little better presentation in the ring, it would be better for the dog.
